**MADE 100% IN THE USA**

**Tinted lenses should be worn during installation.**

**HEAT BARRIER WILL MAKE  
A DONATION FOR EACH ROLL  
YOU PURCHASE**

**THERMAL BARRIER  
ROOFING UNDERLAYMENT**

**Metal**

During the **summer** months, **POLARALUM** acts as a reflective barrier on roofing areas. During the **winter** months, **POLARALUM** assists in reducing the heat escaping.

**POLARALUM** installed face down on flat roofs and/or pitch roofs reduces the sun's energy from entering attic or ceiling cavities.

**POLARALUM** can also be retro fitted inside the attic cavity.

**Tinted lenses should be worn during installation.**

**POLARALUM** has a proven record of over 14 years and is available nationwide. Distributed by Heat Barrier Systems, Inc., **POLARALUM** is made of light weight non-woven polyester and aluminum foil making it flexible and easy to cut and custom fit.
